

P-BREVE-01-R2 study lineage and claim disposition

1. P-BREVE-01

first-pass no-go preserved

2. P-BREVE-01-R2

micro-SFT + conservative DPO

3. One-epoch result

efficiency target missed at both-seed bar

4. Two-epoch screen

apparent dose response on code tasks

5. Serving control

untrained base reproduced termination shift

6. Original evaluator

24/24 shortcut programs passed

7. Replacement evaluator

improved, but independent qualification failed

8. Final disposition

no model, bank, or release candidate

P-BREVE-02 remains reserved for a future locked-recipe Western-base replication.
